

School of Translational Medicine
Specialist Clinical
Research Nurse

£26,666 - £37,796 p.a. pro rata

Ref: MHS/287/07

You will provide specialist support nationally (and in future internationally) for CGD adults and their families. This requires contacting and creating channels of communication with all adult CGD patients nationally, and their carers, creating and maintaining a database of families, their genetic defects and individual histories, contributing these data to national and international studies of CGD, educating healthcare professionals about the disease and relevant, publishing papers on the management of adult CGD patients.

You will also provide direct research and nursing support to the tertiary referral 'Difficult Asthma' clinic, including provision of IgE therapy, other experimental therapies, collection demographic and outcome data for phenotypic and genetic studies.

The post is for 4 days a week for 1 year in the first instance and will be based at Wythenshawe Hospital.

Informal enquiries may be made to Professor David Denning on +44 (0) 161 291 5811 or ddenning@manchester.ac.uk

Application forms and further particulars are available from our website or by contacting +44 (0) 161 275 8835 or mhs-hr@manchester.ac.uk quoting the reference number.

Closing date: 19 October 2007.

The University will actively foster a culture of inclusion and diversity and will seek to achieve true equality of opportunity for all members of its community.
